## FIM ACADEMY – TECHNICAL STEWARDS TRAINING VIDEOS

Dear Madam, Dear Sir,

The FIM International Technical Commission (CTI) and the FIM Academy are pleased to share a series of videos that have been developed to support the training of Technical Stewards at national and international levels.

These videos are intended to guide the FIM Stewards through the technical verification processes and can be used by the National Federations for their training seminars. All videos are available on the [FIM Academy Platform](#) in English, with subtitles in Spanish or in French and can also be accessed on the FIM YouTube channel by clicking on the following links:

We are working actively to complete the above table with additional disciplines. An additional video about the Baja technical control will be published in the near future on the FIM Academy e-learning platform.

The FIM Academy stands ready to provide support to National Federations that wish to translate and/or subtitle the videos into different languages at their own expense.

We strongly encourage you to include these videos in your national technical trainings and to use them for the preparation of your Technical Stewards for the FIM Seminars.

For any question you may have, please do not hesitate to contact either the CTI Commission ([cti@fim.ch](mailto:cti@fim.ch)) or the FIM Academy ([fim-academy@fim.ch](mailto:fim-academy@fim.ch)).

Yours faithfully,
